STUDENT DRIVER FORM FOR SCHOOL SPONSORED TRIPS

A student who has a valid California Driver's License and parental permission may transport himself/herself to authorized school sponsored activities, but may not transport other students. Completion of this form, including a parent/guardian signature is required for students transporting themselves on school sponsored activities.

The Dublin School District carries liability insurance covering all school sponsored activities. In the event of a vehicular accident, however, coverage is provided by the student driver's own automobile insurance. The school district does not provide insurance coverage should a vehicular accident occur while student is transporting himself/herself on a school sponsored activity.

I hereby certify that I hold a valid California Driver's License. I further certify that I have consent of my parent/guardian to transport myself on authorized school sponsored trips.
